ABOUT ME

Experienced Web Developer specializing in PHP and Laravel with a strong focus on building scalable business and e-commerce applications. Skilled in developing secure, high-performance systems with clean, maintainable code. Proven ability to design professional admin panels featuring role-based access control, site configuration management, and performance optimization. Comfortable working independently as well as within collaborative team environments.

EXPERIENCE

Computer Operator   07/2025-12/2025

Jaipur Development Authority

- Managed official data entry, system records, and documentation.
- Supported internal IT operations and handled computer-based workflows efficiently.

Web Developer   2024-2025

Bluerank

- Developed and maintained Laravel-based business and e-commerce applications.
- Implemented admin panels with role & permission systems and site settings.
- Optimized performance, database queries, and security best practices.

PHP Laravel Developer (Trainee)

W3Care Technologies Pvt. Ltd.   2024-2024

- Trained on Laravel through dummy projects and later supported backend development tasks on live projects, including CRUD features, validations, and bug fixes.
